“**HER** ASPIRATION
NEEDS
HIS COOPERATION”

Grace Hopper 1906-1992

Hopper was computer scientist and US Navy Admiral.

She was the first to use the term "debugging" for fixing computer problems

Hopper developed the first working compiler and developed COBOL, a programming language still in use today.

I'm no longer accepting the
things I cannot change...
I'm **changing the things**
I cannot accept.

– *Angela Davis*
