- Loyalty scheme operators should ensure that **changes are fair** and that consumers are **adequately notified**

Recommendation 3: End the practice of automatically linking members' payment cards to their loyalty scheme profile

- Loyalty scheme operations should not automatically link payment cards to loyalty scheme profiles to **track purchasing and transaction behaviour** when a loyalty card is not scanned.

Recommendation 4:
Improve the data practices of loyalty schemes

- Loyalty scheme operations need to review their approach to presenting consumers with information about how they **handle consumer data**, and provide consumers with **meaningful control** over their data
